

I am concerned about the new LPFM stations. I listen to K-Love radio and I would be terribly upset if it were replaced by a LPFM. I love being able to drive to and from work each day listening to K-Love. With all the choices of radio stations, K-Love is the only one that I can leave on and not worry about what might be said or played in front of my 3 yr. old son. The music makes me calm and peaceful and a better driver in a city where road rage is prevalent. K-Love is presenting a positive, encouraging listening experience to me and to others in my community who listen and it would be a great disservice to take it off the air and replace it with a LPFM that may have questionable programming. PLEASE do not replace m K-Love station!
